

# Chetana Pradnya Ingle

(+91) 8180807089 | chetanaingle7@gmail.com | Pune, Maharashtra, India | GitHub | LinkedIn | Portfolio

## PROFILE

Computer Engineering graduate with a strong foundation in software development, artificial intelligence, and data-driven technologies. Experienced in designing and developing full-stack applications, machine learning solutions, and research-oriented projects using modern development frameworks. Passionate about pursuing research in Artificial Intelligence, AIoT, and Intelligent Embedded Systems, with the goal of developing intelligent systems that address real-world challenges through innovative and impactful solutions.

## RESEARCH INTERESTS

- Artificial Intelligence • Internet of Things • Machine Learning • Intelligent Embedded Systems • Data Science
- Edge AI • Edge Computing

## EDUCATION

### Bachelor of Engineering in Computer Engineering

Nov 2022 – Jul 2026

Savitribai Phule Pune University (SPPU)

Dr. D. Y. Patil Institute of Engineering, Management & Research, Akurdi, Pune

- **Final CGPA:** 8.71/10.00
- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Data Science.

### Higher Secondary Certificate (HSC) - Science

Apr 2022

Maharashtra State Board of Secondary & Higher Secondary Education (MSBSHSE)

Jaihind Junior College, Pimpri

- **Percentage:** 75.67%

### Secondary School Certificate (SSC)

Apr 2020

Maharashtra State Board of Secondary & Higher Secondary Education (MSBSHSE)

Baby's English High School

- **Percentage:** 94.00%

## CONFERENCE PRESENTATIONS

### SkillSage: Adaptive Career Roadmap Generator

14th International Conference on Contemporary Engineering and Technology (ICCET), Chennai, India

Mar 2026

- Presented a research paper on an AI-driven adaptive career roadmap generation system, highlighting personalized career guidance through intelligent skill-gap analysis and recommendation techniques.
- Demonstrated the proposed methodology, system architecture, and practical applications to researchers and academic professionals.

### NeuroSpace: Behavioural Productivity Analysis Platform

4th International Conference on Computational Applied Sciences and Their Applications (ICCASA), Jaipur, India

Sep 2026

- Presented a research paper on a behavioural productivity analysis platform, focusing on analyzing digital behaviour and productivity patterns through intelligent data-driven techniques.
- Presented the proposed system and its practical applications for understanding user productivity patterns to researchers and academic professionals.

## PROJECTS

---

### SkillSage: Adaptive Career Roadmap Generator

*Next.js, React, TypeScript, Tailwind CSS, Prisma ORM, SQLite, Cloudinary*

- Developed an AI-powered career guidance platform featuring ATS-based resume analysis, skill-gap assessment, personalized roadmaps, and AI-assisted career recommendations.
- Designed an integrated system to support data-driven career planning through intelligent analysis and personalized learning pathways.

### NeuroTrace: Behavioral Productivity Analytics Platform

*Next.js, React, TypeScript, Tailwind CSS, Node.js, Supabase, Recharts*

- Built a real-time behavioral analytics platform that monitors digital activity and generates interactive productivity dashboards and focus insights.
- Implemented behavioral data analysis and visualization to help users optimize productivity using actionable analytics.

### Wanderlust: Full-Stack Vacation Rental Platform

*Node.js, Express.js, MongoDB, Mongoose, Passport.js, Cloudinary, Mapbox, EJS*

- Developed a full-stack vacation rental platform with secure authentication, property listing management, cloud-based image storage, and interactive maps.
- Implemented complete CRUD functionality, user reviews, and responsive interfaces to deliver a seamless accommodation booking experience.

### Kotoba: AI-Powered Japanese Learning Platform

*Next.js, TypeScript, Tailwind CSS, Clerk Authentication, Groq API*

- Developed an AI-powered Japanese learning platform featuring translation, Hiragana & Katakana practice, flashcards, quizzes, and secure user authentication.
- Integrated AI-assisted language learning with interactive educational modules to provide a personalized Japanese learning experience.

## INTERNSHIP EXPERIENCE

---

### Data Analytics Intern

*Internship Studio (iStudio)*

Jan 2025 – Feb 2025

- Successfully completed a one-month Data Analytics Internship, applying data preprocessing, exploratory data analysis, and visualization techniques to extract meaningful insights from complex datasets.
- Strengthened analytical thinking, problem-solving, and data-driven decision-making through hands-on projects, gaining practical exposure to real-world data analytics workflows.

### Internship – Python Programming, Java Development, Data Science & Security Analytics

*Oasis Infobyte*

Jul 2026

- Successfully completed multiple domain-focused internship projects and tasks across diverse technical areas.
- Developed Python applications including a Voice Assistant, Weather Application, BMI Calculator, and Chat Application, applying automation, GUI development, APIs, and object-oriented programming.
- Designed and implemented Java-based applications including an Online Examination System, ATM Interface, and Online Reservation System, emphasizing object-oriented programming and database integration.
- Built machine learning and data analytics projects including Iris Flower Classification, Email Spam Detection, Sales Prediction, and Unemployment Analysis using data preprocessing and predictive modeling techniques.
- Performed cybersecurity tasks including Network Scanning, Security Threat Analysis, Social Engineering Attack Analysis, and Wireshark-based Network Traffic Analysis to strengthen practical knowledge of network security.

### Artificial Intelligence + Gen AI Intern

*Skill Vedanth*

Aug 2026 - Present

- Currently developing expertise in Python for AI, Machine Learning, Deep Learning, Generative AI, LLMs, and Prompt Engineering through hands-on projects and assignments.
- Working on RAG-based AI systems, vector databases, LangChain/LangGraph workflows, AI-powered chatbots, and real-world Generative AI applications through project-based learning.

## TECHNICAL SKILLS

---

Programming Languages: Python, Java, JavaScript, TypeScript, C++, SQL

Frontend Technologies: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap, EJS

Backend Technologies: Node.js, Express.js, FastAPI, RESTful APIs, Passport.js, Multer, JDBC, Java Swing

Databases & ORM: MySQL, PostgreSQL, MongoDB, SQLite, Firestore, Supabase, Prisma ORM, Mongoose

Artificial Intelligence & Data Science: Machine Learning, Scikit-learn, Pandas, NumPy, Data Preprocessing, Data Analysis

Cybersecurity & Networking: Network Scanning, Vulnerability Assessment, Wireshark, Traffic Analysis

Authentication & Security: JWT Authentication, Session-Based Authentication, RBAC

Cloud, Deployment & Developer Tools: Git, GitHub, Vercel, Render, Railway, Firebase, Cloudinary, Postman

Core Computer Science Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database

Management Systems (DBMS), Operating Systems, Computer Networks, System Design, Problem Solving

## CERTIFICATIONS

---

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle)
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate (Oracle)
- Career Essentials in Generative AI (Microsoft × LinkedIn Learning)
- International Level Bootcamp on Data Structures & Algorithms (AICTE × Brainovision Solutions Pvt. Ltd.)
- Delta – Full Stack Web Development (Apna College)
- Alpha – Data Structures & Algorithms with Java (Apna College)
- Data Structures & Algorithms with C++ (Apna College)

## LEADERSHIP EXPERIENCE

---

### Team Leader – Smart India Hackathon (SIH) 2025 Grand Finale Team - [ Team Atalra ]

- Led a multidisciplinary team of five members in designing ExploreSure, an IoT, AI, and Blockchain-based security solution for the Smart India Hackathon Grand Finale.
- Coordinated project planning, technical discussions, documentation, and presentation while ensuring effective team collaboration.

### Music Head – Aaveg Kalamandal

- Served as Music Head for four years, leading the college music team and coordinating performances for major intercollegiate competitions including Firodia Karandak, Sakal Karandak, and Vinodottam Karandak.

## HONORS & AWARDS

---

### Best Self-Composition – Firodia Karandak 2024

- Recognized for Best Self-Composition at Firodia Karandak 2024, one of Asia's largest intercollegiate multi-arts competitions, and felicitated by renowned music composers Ajay–Atul.

## EXTRACURRICULAR ACTIVITIES

---

### Music, Performing Arts & Poetry

- Passionate about vocal music, poetry, and instrumental performance; proficient in flute, ukulele, harmonium, melodica, and keyboard (Casio), with experience in Indian classical, traditional, western, and contemporary music.
