

CHETANA INGLE

(+91) 8180807089 | chetanaingle7@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

I am a Computer Engineering Graduate skilled in designing end-to-end applications using modern web technologies, REST APIs, databases, and AI integration while emphasizing performance, usability, and maintainable software solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C++
Frontend: HTML5, CSS3, React, Next.js, Tailwind CSS, EJS, Bootstrap
Backend: Node.js, Express.js, FastAPI, REST APIs, Passport.js
Databases & ORM: MySQL, PostgreSQL, MongoDB, SQLite, Prisma, Firestore, Supabase, Mongoose
Cloud & Tools: Git, GitHub, Vercel, Render, Railway, Firebase, Cloudinary
Core Concepts: Data Structures & Algorithms, OOP, Problem Solving, System Design

PROJECTS

SkillSage: Adaptive Career Roadmap Generator

Tech Stack: Next.js • React • TypeScript • Tailwind CSS • Prisma • SQLite • NextAuth • Cloudinary

- Developed an AI-powered career guidance platform featuring resume analysis, personalized roadmap generation, and AI career counseling.
- Generates personalized learning roadmaps with curated resources based on users' career goals, skills, interests, and learning preferences.
- Performs ATS-compatible resume evaluation, identifies skill gaps, and recommends targeted improvements for enhanced career readiness.
- Tracks learning progress through interactive dashboards and adaptive recommendations for continuous skill development and career growth.

NeuroTrace — AI-Powered Digital Behavior Analytics

- Developed a productivity analytics platform that tracks website usage, apps activity, and digital work patterns in real time across devices.
- Monitors active tabs, session duration, idle time, and focus behavior to capture meaningful productivity insights and trends.
- Analyzes behavioral patterns to identify distractions, measure productivity trends, and generate personalized focus recommendations using AI-driven analytics.
- Visualizes productivity metrics through interactive dashboards, enabling users to improve digital habits, efficiency, and long-term focus.

CONFERENCE PRESENTATIONS

ICCET 2026 — Chennai, India

- Presented the research paper “SkillSage: Adaptive Career Roadmap Generator” at the 14th International Conference on Contemporary Engineering and Technology (ICCET 2026), Chennai, India.
- Showcased an AI-driven career guidance system integrating resume analysis, skill-gap assessment, and personalized learning pathways.

ICCASA 2026 — Jaipur, India

- Presented the research paper “NeuroSpace: Behavioural Productivity Analysis Platform” at the 4th International Conference on Computational Applied Sciences and Their Applications (ICCASA 2026), organized by the University of Engineering & Management, Jaipur.
- Presented research on a behavioural productivity analysis platform for understanding and analyzing user productivity patterns.

INTERNSHIP

Data Analyst Intern | Internship Studio

- Extracted, cleaned, transformed, and analyzed structured datasets using Python, SQL, data preprocessing, and exploratory data analysis (EDA) to identify meaningful trends and business insights.
- Built interactive Power BI dashboards and applied statistical analysis to visualize findings, support data-driven decision-making, and generate actionable business recommendations.

Python Programming, Java Development, Data Science, Cyber Security | Oasis Infobyte

- Developed Python applications including a Voice Assistant, Chat Application, Weather App, and BMI Calculator using Tkinter, SQLite, APIs, Socket Programming, and multithreading.
- Developed Online Reservation System, ATM Interface, and Online Examination System using Java, Java Swing, OOP, and SQLite.
- Built machine learning and data analytics projects including Email Spam Detection, Sales Prediction, Unemployment Analysis, and Iris Flower Classification using Python, Pandas, Scikit-learn, Matplotlib, Seaborn, and NLP.
- Performed network scanning, traffic analysis, and cybersecurity research using Nmap, Wireshark, TCP/IP, DNS, HTTP, and network security analysis techniques.

Artificial Intelligence + Gen AI Intern | Skill Vedanth

- Currently developing practical expertise in Python for AI, Machine Learning, Deep Learning, Generative AI, LLMs, and Prompt Engineering through hands-on projects and assignments.
- Working on RAG-based AI systems, vector databases, LangChain/LangGraph workflows, AI-powered chatbots, and real-world Generative AI applications through project-based learning.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle Corporation)
International Conference on Contemporary Engineering & Technology
Delta – Full Stack Web Development (apnaCollege)
DSA with Java (apnaCollege)
DSA with C++ (apnaCollege)
Career Essentials in Generative AI (Microsoft × LinkedIn Learning)

LEADERSHIP

Finalist – Smart India Hackathon (SIH) 2025 | Team Ataltra

Led Team Ataltra to the Smart India Hackathon 2025 National Finals by managing project planning, end-to-end development, technical execution, and final presentation of an AI, Blockchain, and IoT-based solution through effective cross-functional team coordination.

EDUCATION

B.E. - Computer Science & Engineering	CGPA: 8.71 /10 Nov 2022 - JUN 2026
Dr. D Y Patil Institute of Engineering Management & Research, Akurdi	
XII (MSBSHSE)	75.67% APR 2022
Jaihind Junior College, Pimpri	
X (MSBSHSE)	94.00% APR 2020
Baby’s English High School	

SPECIAL ACHIEVEMENT

Music Head | Firodiya Karandak, Sakaal Karandak & Vinodottam Karandak (2022 - 2026)

- Directed and composed music for team performances in major intercollegiate competitions, contributing to overall creative execution.
- Awarded Best Self Composed Music by renowned composer duo Ajay-Atul for original composition at the Golden Jubilee of Firodiya Karandak 2024, an Intercollegiate multi-talent competition.
